## Vitality of Youth

For Men Who Have Lost It

The force that runs the human machine is stored in the nerves. This nervous energy, as it is called, is only another name for electricity.

If any organ of your body is weak or inactive it means that the nerves which control it lack power. This must be restored before the affected part can perform its natural functions. It does no good to take drugs for such a condition as this. You can only affect a cure by replacing the energy that has been lost. Drugs are poisons—electricity is life.

Saturate your nerves with a glowing current from Electra-Vita for a few hours each night while you sleep. The weak organs will respond to its influence in the same way that an electric motor starts whirling as soon as the power is turned on.

Electra-Vita is a self-charged body battery which generates a steady, unbroken stream of galvanic electricity and infuses it into the nerves in just the right volume. It builds up vitality and strength and cures all ailments resulting from a debilitated state of the nerves and vital organs.

Men who suffer from lost strength, debility, drains, enlarged veins and similar complaints will find that Electra-Vita, together with electric suspensory attachment, will quickly put them in good condition.

It is a natural remedy, and those who have used it will tell you that it does all we claim for it.

Mr. Walter Kemont, Round Mountain, Nev., says: "I can truthfully state that Electra-Vita is a perfect remedy for weakness and kidney trouble. It has cured me of such a condition, and I gladly recommend it. I tried any number of treatments before I found Electra-Vita, and I know nothing else equals it."
